

## IPS COVERS

IPS manufactures a complete range of Gaylord, Drum, and Tie Bar covers for a wide variety of applications.

**IPS Gaylord Covers** By keeping your material securely covered within the container you prevent your raw material becoming contaminated with airborne dirt, dust, and other unwanted debris.

IPS supplies Gaylord covers for Positive or Negative airflow applications satisfying your specific needs, whether it is re-grind or material handling. Gaylord covers for pressure application have belt loops and belts to maintain a snug fit on the Gaylord.

Standard Gaylord Cover Sizes:

GLC 40" x 40" GLC 40" x 46" GLC 42" x 48" GLC 48" x 48" GLC 48" x 52" GLC-51" x 51"

Standard wand openings are 2.75" and special openings from 6" - 10" for regrind equipment.
